DECLARED A DRAW

Murphy and Plimmer Meet in the Fistic Ring.

TWENTY-FIVE ROUNDS FOUGHT.

Plimmer Had the Best of the Hitting but Murphy's Gameness and Generalship Enabled Him to Continue the Contest to the Required Twenty-Five Rounds—Details of the Fight.

NEW ORLEANS, Sept. 25.—The first of the series of the fights which will form the pugilistic triple event at the Olympic club took place last night in the presence of about 5,000 spectators. Professor John P. Eckhart, the popular New York referee, officiated as judge of the merits of the men according to the terms of the articles of agreement between the fighters.

Murphy and Plimmer fought last night for a purse of \$2,500, \$2,000 to the winner and \$500 to the loser. The men were in splendid condition, and weighed in at the stipulated weight—115 pounds.

The stakeless ring was introduced for the first time, and so far as appearance went seemed to be an improvement on the old style roped enclosure.

Professor John Duffy entered the ring introducing Referee Eckhart, who was received with a good demonstration of cheers. Plimmer was seconded by Billy McCarthy, Benny Murphy and Al Robb. Murphy was looked after by James Connery, Jake Kilrain and Andy Bowen; Frank Caranback was official timekeeper.

First round—The work in the first round was very pretty. Plimmer landed several left-hand punches on the head and rights over the heart. Though he missed one of the most vicious swings ever seen in the ring here, Plimmer had a way the best of the round.

Second round—Murphy landed a left swing on the jaw, though he received a severe stomach punch in return. Murphy received a right on the jaw and got in a moment later in the same place. Murphy received severe punishment in this round and especially on the body, though as the round ended Plimmer ducked into a heavy uppercut.

Third round—Plimmer became the aggressor, landing a right body punch and sending in right and left a moment later. Both men landed lefts, though Plimmer got the best of the exchange. Plimmer punched at will all over the ring and the Boston bantam looked the "worse for wear" at the end of the round.

Fourth round—Plimmer forced the fighting from the start, being much the stronger of the two, though Murphy got in one or two good right-handers on the jaw. In the middle of the ring Murphy ducked into a heavy left uppercut, and got much the worst of the encounter. In the end of the round there was a rapid exchange of blows and beautiful outfighting marked the meeting of the men in the middle of the ring. Murphy's blows lacked steam, though his science was of the neatest order. This was Plimmer's round.

Fifth round—There was considerable mixing in this round and the work, though heavy at times, was of the most artistic character. Plimmer's right-hand body punching was terrific, though the Boston man took his medicine gamely.

Sixth round—Plimmer was having much the best of this round from the commencement, though Murphy assisted him, missing some heavy left leads. Plimmer was continually pounding at the heart, though Murphy's right eye showed signs of punishment. As the going sounded Plimmer landed a heavy right on the body.

Seventh round—Plimmer was the aggressor, landing his left in the stomach and his right at will. There was a hot clinch in the middle of the ring in which both men lost their tempers, Referee Eckhart calling them to immediate order.

Eighth round—Plimmer forced the fighting, though Murphy landed a good upper-cut on the Englishman's face. Plimmer more than evened up the punishment. Later, however, Murphy scored the best hitting during the fight. Murphy was a heavy favorite of the audience, and as he went to his corner, he was loudly cheered.

Ninth round—All the honors were Plimmer's in the ninth.

Tenth round—Murphy was still strong in the 10th round, and a clinch near the ropes threw Plimmer from him with the greatest ease. He got a heavy right on the body and head, however, and was the receiver in general of the punishment administered. Murphy was nearly taken off his feet by a heavy right-hand swing, and "Ohs" were heard. This was a give-and-take round, and Murphy did the best he had so far done.

Eleventh round—Both men landed heavy swings, though the body punching Murphy was getting was terrific. Murphy looked a little tired at the end of the round, but was doing better than in the early stages of the contest.

Twelfth round—Murphy evened things up in the 12th round, landing better blows, and if anything had the best of the round.

Thirteenth and fourteenth rounds—The fighting was terrific, Murphy getting some fearful punches. When the going sounded at the end of the 14th round, the men had to be separated.

In the 15th and 16th rounds the men fought desperately. Murphy got the greater number of blows and the harder ones, too. Still the Englishman failed to weaken him to any great extent.

In the 17th and 18th rounds Plimmer had the better of the fighting, but in the 18th round Plimmer's execution was terrible. He landed a heavy right on

Murphy's throat, knocking the latter to the ground, and, though Murphy got up and fought gamely, he was hampered around the ring to the end of the round.

The 19th and 20th rounds were in Plimmer's favor, the latter jabbing Murphy all around the ring.

Twenty-first round—Murphy received severe punishment.

Twenty-second round—Plimmer was knocked down in this round by a heavy right in the jaw and was heartily cheered. This was Murphy's round.

In rounds 23 and 24 there was terrific fighting in Plimmer's favor. Murphy's recuperative powers, however, were immense.

Twenty-fifth round—The men shook hands for the windup. Plimmer's blows seemed to have the most steam. The little Englishman landed some hard

body blows with his right, and some hard blows with his left. The audience rose in a body to hear the verdict. The referee declared the match a draw and his decision received general approbation. Plimmer had the best of the hitting, but the little Bostonian's gameness and generalship enabled him to continue the contest to the required 25 rounds.

Tonight Jack Everhardt, the local favorite, will give Stanton Abbott a return fight for a purse of \$1,500. A six-round bout between Griffo and Mickey Dunn will precede the contest and as this will be the first appearance of Griffo in this city, he will prove almost as good a drawing card as the principal event.

The carnival will close Wednesday night with the greatest fight that has taken place in the last two years, Bob Fitzsimmons and Dan Creedon will contest for the middleweight championship of the world.

INDIAN AGENTS.

Many of Them Want to Be Relieved of Their Jobs.

WASHINGTON, Sept. 25.—There are now pending in the interior department quite a number of cases where army officers have been serving as Indian agents whose applications are on file asking to be relieved from their present position. There are any number of men who are ready and anxious to take their places. It is probable that upon the return of Secretary Smith quite a number of cases will be prepared and sent to the president naming civilians as successors of several army officers. There are, however, many applications on file by army officers who ask to be appointed to Indian agents. It is probable that some of these may be selected.

The Indian authorities are satisfied that the Indian service taken as a whole is neither improved nor injured by the appointment of army officers as Indian agents. In some instances the work has been performed better by army officers and in others not as well, it depending upon the character of the man and not upon his military or civil life. It is believed that the impression has gained ground in official circles that upon the whole the experiment of making army officers Indian agents has not proved a success, and that both the interior and war departments would prefer to have other arrangements and that the Indians themselves would be fully as well satisfied with civilians.

"The Indians are no longer warlike," said an official of the interior department, "and we can control them by civil as well as by military agents. To some officers the duty of Indian agent is extremely distasteful, while others are anxious to serve in that capacity. It is often found that the former class are efficient while the latter are the kind of men we don't want. Good business men who are clear headed, and who have discretion will make good Indian agents. Plenty of such men can be found outside of the army."

An army officer discussing the subject of officers as Indian agents, says there are many officers who are very much opposed to details as Indian agents because they do not have the opportunity to keep themselves in complete military training and ready for examinations for promotions when ordered. There are others, he says, who have become disappointed in the service, and are eager to accept positions which separate them active army life. It is quite probable that most of the vacancies occurring by the retirement of army officers as Indian agents will be filled by the appointment of civilians.

Coroner Investigating a Mystery.

ALLEGAN, Mich., Sept. 25.—The coroner's jury is holding a secret inquest upon the remains of Ira Hurd, who was shot at his home by his wife, as the latter claims, through accident, Saturday night. Mrs. Hurd would talk but little. The revolver with which she claims to have fired the fatal shot, it transpires, was not discharged at all, but one bullet had been extracted. It is the general belief that the shot was fired by another person, who was with Mrs. Hurd at the time.

Culmination of an Old Feud.

NEWPORT, Ark., Sept. 25.—Dr. R. P. Watson, one of the most prominent men in Arkansas, was shot and almost instantly killed by Robert Simmons, chief of police of Newport, late yesterday afternoon. The tragedy is the culmination of an old feud between the two men. When they met yesterday afternoon, a quarrel ensued, pistols were drawn and Simmons shot Watson three times through the body. Simmons is in jail.

Shot at Random.

GREELEY, Colo., Sept. 25.—James P. Weaver, representing the Weaver Electric Automatic Burglar Alarm and Door Bell company of Indianapolis, and claiming to be a cousin of General J. B. Weaver, began shooting a revolver at random in the Exchange hotel yesterday. One bullet hit a man named Hobbs in the knee and it is feared he will lose his leg. Weaver was arrested. He is believed to be temporarily insane.

STILL MANEUVERING.

Japs and Chinese Preparing For a Decisive Battle.

THE LATTER ARE BADLY ARMED.

It Is Recognized That a Battle Must Be Fought on the Yalu and the Chinese Are Straining Every Nerve to Retrieve the Disaster at Ping-Yang—Russia Has a Chance to Interfere.

LONDON, Sept. 25.—A dispatch from Shanghai says: Captain Tung, commander of the Chinese warship Chih-Yuen, which was sunk in the engagement off the Yalu river, is among the saved.

The British steamer Irene, from Hamburg, loaded with large quantities of munitions of war, has safely arrived at Taku and landed her cargo.

It is understood that the governor of Manchuria is concentrating all the troops raised in that province upon Mukden and that on the route to Wia-wu extensive earthworks are being thrown up. The levies are composed of hardy north Chinese and are excellent material, but they are badly armed, only about 4,000 of them having good military rifles. Further supplies, however, are being hurried up from the southern arsenals.

The Chinese force entrenched upon the Yalu river is estimated to number 38,000 men. Many of these are raw levies and also badly armed. The loss of field guns, rifles and ammunition suffered at Ping-Yang has greatly embarrassed the Chinese war department. It is recognized that a battle must be fought on the Yalu and the Chinese are straining every nerve to retrieve the disaster at Ping-Yang.

European officers here doubt whether Mukden is really the immediate objective of the Japanese. It is considered more probable that if they attack Wia-wu, the Japanese will make a descent from the sea upon Neu-Chwang with an expeditionary force. If this movement should be successfully made the Japanese would cut the Chinese main line of communication and could attack the Yalu army in the rear. Neu-Chwang in the possession of the Japanese would form a base for a movement upon Mukden, or upon Pekin itself, and the forces landed there could co-operate with the army advancing from Corea. This is the plan credited by experts to Field Marshal Yamagata.

The Island of Yaitantan, in Corea bay, has been made a coaling store and station from where the Japanese can keep constant watch upon the mouth of the Gulf of Pe-Chi-Li, nine Japanese gunboats being stationed there. The Emperor of China holds a war council every afternoon at 4 o'clock. He is completely under the influence of his former tutor and aged advisers.

More About the Naval Battle.

YOKOHAMA, Sept. 25.—A letter received here from Tien-Tsin says that the Chinese fleets landed 7,000 troops on the banks of Yalu river in spite of the attack of the Japanese squadron. The letter adds that the Chinese ships engaged in the battle fought off the Yalu river were short of ammunition. They were ordered by Colonel Von Hannekin to ram the Japanese vessels, but the order was given too late, as the Japanese were already retiring.

A Chance For Russia to Interfere.

LONDON, Sept. 25.—A dispatch to The Times from St. Petersburg says: It is reported here that Chinese marauders have attacked a station of the New Usuri section of the Siberian railway, plundered the telegraph office and killed eight Russian employes. It is feared that the government will make this a pretext to interfere in the Korean struggle between China and Japan.

HELD UP THE BANK.

Daring Deed Accomplished but the Desperado Is Captured.

MOUNT STERLING, Ills., Sept. 25.—A young farmer named Raleigh Conkling rode to the rear door of the banking house of Bloomfield, Skiles & Company yesterday, dismounted, entered, and, with a double-barreled shotgun, held up Cashier Milsted and Assistant Cashier Allison. He then gathered up \$411 in money and attempted to get away but was caught and the money recovered after a little fight.

He shot at A. J. Nighswonger, who attempted to prevent his getting on his horse, but only inflicted slight flesh wounds. Conkling gives the names of Oscar Ritter and John Walters as his accomplices. Walters has served time at Joliet for larceny. The alleged accomplices have not been arrested.

Brazil Abrogates Reciprocity.

WASHINGTON, Sept. 25.—Brazil has abrogated her reciprocity treaty with the United States. The formal announcement was received at the state department yesterday. It came in the form of a letter from Minister Mendonca, Brazil's diplomatic representative here, and said that in accordance with instructions from his government he gave notice of the abrogation of the reciprocity treaty to take effect on Jan. 1 next.

NORWALK, O., Sept. 25.—The grain elevator of E. S. Tuttle of this city was totally destroyed by fire. The building was owned by the Huron County Banking company, valued at \$3,000, with insurance of \$1,500. Tuttle's loss is about \$7,550, insured for \$6,000.

Strikers Returning to Work.

BOSTON, Sept. 25.—Eight clothing contractors signed the agreement submitted by the striking garment workers, and 800 strikers returned to work.

BURIED UNDER A MASS OF EARTH.

One Man Killed and Four Others Badly Injured.

PHILADELPHIA, Sept. 25.—Five laborers were buried under a mass of earth almost as compact as stone while at work yesterday afternoon, making an excavation for the foundation of a retaining wall just below Germantown avenue crossing of the Richmond branch of the Reading railroad. One man, Andrew Kovats, a Hungarian, was fatally injured and died a few minutes after his body was recovered. Four others were seriously injured, and received attention at the Germantown and the Samaritan hospitals.

The injured are: Michael Kirtz, badly bruised back, right leg contused, hurt internally. John Teskel, contused back. John Fitzgerald, contused back. Donio Dendine, left hip bruised.

The casualty happened in an unexpected manner. None of the workmen thought they were in danger at any time. For a month past they have been employed at the Germantown avenue bridge, building a heavy stone wall to prevent just such an accident as befell them Saturday.

The laborers had finished their noon lunch and were again at work when a heavy ice wagon was driven along the edge of the ground in the shadow of which they stood. Nothing unusual was noticed at the time, but it is supposed that it was then that the ground was cracked. A few minutes later, at 1:25 o'clock, a mass of several tons of earth fell on the five men named, as they were bending over their shovels. Kovats and Kirtz were hidden from sight, but portions of the forms of Fitzgerald, Teskel and Dendine could be seen as they struggled to extricate themselves.

Thirteen men, all told, were at work along the wall, and those who had escaped being caught rushed to the assistance of the unfortunates. With shovels, the hard ground was carefully pushed aside. Kovats was found to be doubled up unconscious, but still breathing. Although Kirtz had been buried out of sight, the ground fell in such a way as to give him a breathing space about his head. Ambulances from the Germantown and Samaritan hospitals were sent for, but Kovats died before he could receive medical attention.

SKELETONS UNEARTHED.

Manacles Were Found Attached to the Arm and Leg Bones.

ST. PETERSBURG, Sept. 25.—A number of skeletons with manacles attached to the arm and leg bones have been found buried close to the surface of the courtyard of the customhouse here. A similar discovery was made a few years ago at almost the same place, but upon the former occasion instruments of torture were also discovered with the skeletons.

It is stated that a secret chancellery of the tyrannical regent Biren, the favorite of Empress Anna, were situated where the remains were found. Anna ruled from 1730 to 1780. It is stated that 20,000 victims of Biren's tyranny perished during these six years.

WHERE IS HE?

Deputy United States Marshal Alexander Campbell Mysteriously Missing.

COLUMBUS, O., Sept. 25.—United States Marshal Henry Bohl is anxious concerning the safety of Deputy Marshal Alexander Campbell, who left Columbus two weeks ago with Albert Heed, a defaulting postmaster, in custody to be delivered to the United States court at Boise City, Ida. Not a word has been heard from him since he left.

It was arranged that he should report to the office here as he proceeded, and his failing to do so causes Marshal Bohl to suspect that something has gone wrong. He should have reached Columbus on his return trip by this time.

Resisting the Tax Collectors.

ST. LOUIS, Sept. 25.—A special to The Republic from Sturgis, Ky., says: "Affairs at Caseyville and Lindell, the tax precincts, are drawing to a crisis. The people are up in arms and ready for Captain Blackwell, who is at Uniontown, ready to march, having organized his forces and received his copy of the tax books. Great excitement prevails and bloodshed is expected in the first attempt made to collect the tax. Captain Blackwell has been visited by several ministers of the Christian church urging him to desist, but he refuses on the ground that five other men offered to collect the tax."

Epidemic of Diphtheria.

MASON, O., Sept. 25.—An epidemic of sore throat prevails in this neighborhood and not less than a hundred cases are reported. The strange disorder in some respects resembles diphtheria and while not considered by the physicians as dangerous is four-fold more contagious. In fact, it is thought that unless the trouble is early attended to it will eventually develop a case of diphtheria. No deaths are as yet reported to the health authorities.

Besieged Balinese Suffering For Food.

THE HAGUE, Sept. 25.—Dispatches received here from Batavia, Java, say that Mataram, capital of the Island of Lombok, has been almost destroyed by the bombardment of the Dutch fleet. The besieged Balinese are beginning to suffer from famine and are expected to capitulate shortly.

"JACK THE RIPPER" WORK.

Two Brutal Murders Near the Capital of the Austrian Tyrol.

VIENNA, Sept. 25.—A terrible double tragedy of the "Jack the Ripper" class is reported from Amras, not far from Innsbruck, capital of the Austrian Tyrol. On Friday last a young and pretty waitress of Amras, went away from her employer's residence in order to witness a religious procession near that place. On her return home the girl was murdered and the only clew found up to the present of her assassin is a razor-edged knife, which was picked up near her body. The murder caused a great sensation in the neighborhood.

Close to the spot where the waitress was killed the body of another woman, naked and slashed with a knife in the regular "Jack-the-Ripper" fashion, was found yesterday. In addition, another woman belonging to the same neighborhood is missing. Naturally, the whole of the Amras district, as well as all the neighboring towns, are in a state of great excitement. A strong detachment of gendarmes and two companies of imperial riflemen are scouring the country around Amras, but all efforts to arrest the murderer have proved unsuccessful.

WORK OF FIREBOYS.

Car Shops Burned at a Loss of a Quarter Million Dollars.

ERIE, Pa., Sept. 25.—The firebug applied his torch to the Erie City car shops last night. The torch was placed right in the wind's eye and with a north-west breeze behind it, drove the flames over the five-acre plant so ravenously that the united efforts of the fire department could do nothing but save adjoining property. The shops were built 20 years ago, and were valued at \$250,000.

Weeks, a coal shipper of Buffalo, had 30 cars in the shops when they burned. The insurance amounts to about \$60,000. The city is greatly agitated and every factory owner is putting on additional armed watchmen. The fire of last night makes a half dozen incendiary fires in a week.

Attacked With a Breadknife.

DETROIT, Sept. 25.—John C. Hallman was attacked on Griswold street late yesterday afternoon by Thomas Ryan, who slashed Hallman frightfully with a big breadknife. Ryan rushed up to his victim, claiming that Hallman had once assaulted his (assailant's) partner in Alabama with a couplingpin. Hallman had never been in Alabama and had never seen Ryan, but before he could protest Ryan had cut him twice behind the left ear and also slashed his arms, hands and body. Hallman's wounds are not fatal. Ryan was arrested. The police believe him insane.

"The Democrats of Bath County will stand shoulder to shoulder for the Democratic ticket," says the Sharpsburg World, and that's what real Simon-pure Democrats everywhere will do.

The price of American wool has advanced since the tariff has been taken off—the market reports showing an increase of 10 per cent. during the past two months. And free wool was going to ruin the wool and sheep industry, too!

I love the principles of true Democracy because they are founded on patriotism and upon justice and fairness to all interests. I am proud of my party organization because it is conservatively sturdy and persistent in the enforcement of its principles.—Grover Cleveland.

PHILADELPHIA, September 22.—It is currently reported that the sugar trust will shut down some of its refineries next week for an indefinite period in order to work off the large stock of refined sugar. Prices declined 1 cent again today, which makes a decline for the week of 4 cent, and it is said that the shut-down is regarded as necessary in order to reduce stock and keep up prices.

This will never do. Our Republican friends have been telling the people that they will have to pay more for sugar under the Democratic tariff, but here's the price going down instead of advancing.

That it is the duty of every Democrat of the county of Boyd to put on his whole armor for the love of his country and at once take the political field and use his utmost efforts to obtain the election of each of their nominees and to work for the whole ticket; and also to see that our Democratic candidate, Rolla K. Hart, for Congress, shall receive the whole Democratic strength of this county.

The above is a part of the resolutions adopted by the Boyd County Democrats last Saturday. It has the right ring to it. Let the Democrats of other counties buckle on their armor and go to work for every man on the ticket.

The Democracy has reduced the duties on silks, laces, kid gloves, ostrich feathers, cut glass, brandy, Havana cigars, chinaware, paintings and statuary. How happy this will make the poor man!—Ripley Bee.

The Bee has been stealing the Ironton Register's thunder. But while the Bee was talking about what has been done, why didn't it add that the Democrats have reduced the duties on such articles of necessity as woolen goods, hats, shawls, knit fabrics, blankets, flannels for underwear, dress goods, alpaca, carpets, table knives, window glass, common table china, cotton yarns and prints, lumber and thousands of other things that enter into the home of the poor man, as the Irontonian enumerates.

Cure for Headache.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents at J. Jas. Wood's drug store.

TORNADO policies—W. R. Warder, agt.

The following is the price of wool in Philadelphia, on the first day of September for six years, and also the price of the same grade of wool in the London markets during the same period:

Year.	Phila. prices Ohio X X	London prices Port Phillip
1889	34 1/2 cents	24 cents
1890	33 cents	24 cents
1891	31 1/2 cents	23 cents
1892	29 cents	22 cents
1893	25 cents	18 cents
1894	20 cents	19 cents

The McKinley bill took effect in October, 1890, and gave wool of the grades mentioned, or rather pretended to give it, a protection of 11 cents per pound. It will be observed from this table that under the McKinley bill wool sank from 34 1/2 cents per pound in 1889 to 20 cents per pound in 1894, and that the same grade of wool that sold in London for 19 cents only brought 1 cent more per pound in Philadelphia with a protective tariff of 11 cents per pound. Since wool was placed on the free list by the Democrats the price has been advancing.

CARLISLE Mercury: "Judge Pugh, attorney-at-law and professional politician, appealed to the farmers to support him because he was raised on a farm, and consequently sympathized with them. He forgot to say that Rolla Hart was raised on a farm, lives on a farm and has everything he has on earth invested in a farm."

HATTIE PIERCE, colored, was fined \$5 and costs in the Police Court Monday. She assaulted Win. Bell, colored, Sunday with a grape vine switch, claiming he had circulated a story derogatory to her character. Bell denies circulating the story, and claims that a fortune-teller told Hattie that he (Bell) had her hoodooed, and to use the grape vine on Bell to break the hoodoo.

The Last and Greatest Game of Ball of the Season Next Monday.

Maysville Will Put up a Strong Team and Try to Down the Clevelanders.

The game of ball next Monday between the Cleveland (O.) League team and the Maysvilles will be the last of the season at this place, and it will also be the greatest.

Manager Watson has secured such crack players as Knorr, Tenley, G. Riemann, Borte, Hall and McGowan for this game and the locals will have the strongest team gotten together this year. They will give the "Spiders" a lively tussle and if the Leaguers come here with the expectation of having a picnic with our boys, they will change their minds before the game is over.

Manager Watson has gone to heavy expense to bring the Clevelanders here and also to strengthen the home team for this game, and the people of Maysville should show their appreciation by turning out in large numbers. Let the grand stand and the grounds be crowded. Lovers of the National sport in all the surrounding country are cordially invited to come in. They can rest assured that the game will pay them for their trouble.

Remember it will be the last of the season. It will be called at 2:30. Following are the names of the players with their respective positions:

The lawyers and doctors of Wellston, O., started to play a game last Saturday, but in the sixth inning one of the physicians was placed under arrest, putting a stop to the contest.

Staid old Baltimore has gone daft on base ball. The scene at Ford's Opera House, Saturday afternoon, where the games played were scored on the blackboard, was a bedlam let loose when, in the eighth inning, the Baltimore took a long lead of St. Louis and the defeat of New York by Pittsburgh was announced. The big theater was packed to the doors, and when the good news came men hugged each other, threw their coats and hats in the air, and yelled until they were hoarse. In the orchestra circle a prominent Protestant minister led the exhilarated rosters, and back of him priests and politicians were waving their hats and cheering, says a special.

N. P. COCHRAN, one of Lexington's oldest insurance agents, has written a letter to Mayor Duncan in regard to the profits of the companies at that point. He claims the average profits for the last six years for companies in this State was \$250 each per annum. The \$250 was the average profit; of course some companies had made more than others.

THE Trenton, (N. J.) True American says: "Another evidence of the revival of business comes in the announcement that the Domestic Sewing Machine Company, of Newark, has increased the number of its operatives from 1,000 to 1,600 in order to fill large orders, including one from Antwerp, in Belgium, for 500 machines." There could be no better evidence of the revival of business. Sewing machines are not wanted or purchased for ornamental purposes.

THE FIRST FROST.

This Morning the Coolest of the Season to Date.

This morning was the coolest of the season to date. The temperature was down to 42° in this city, and fires and overcoats were needed for one's comfort. Considerable frost was reported on the uplands, back from the river, but it was probably not heavy enough to do much damage.

A great deal of tobacco is yet in the field and a heavy frost would lessen the crop considerably in Mason County.

REV. CHARLES W. FORMAN.

A Devoted Missionary Dies in Far-off India—He Was a Native of Mason County

Rev. Charles W. Forman, the devoted missionary, died on the 27th of August at Kasauli, on the Himalaya Mountains, in Northern India, and was buried in the city of Lahore, where for almost half of a century he had preached the gospel to those heathen people.

He was in his seventy-fourth year, having been born near Washington, this county, March 3rd, 1821.

Mr. Forman was ordained a missionary in July, 1847, in the Presbyterian Church at Washington, then under the care of that saintly man, John H. Condit. He started at once for India, where his life's work has been.

His first wife was Margaret Newton, daughter of Dr. John Newton who had preceded Mr. Forman to India.

The last visit he made to America, two years ago the past summer, Mr. Forman was in very feeble health, and he never regained strength after he returned to India, but had continued to grow more feeble.

He leaves three sons and two daughters, missionaries, and one son and a daughter, Mrs. Rev. Samuel F. Taylor, in this country. His second wife, with two children, also survive him.

This accomplished and consecrated woman—his last wife—was the daughter of a Scotch officer in the English army in India, and when her father was killed during the Sepoy rebellion, she was taken up by the regiment and educated,—made "the child of the regiment."

She has a most interesting history and is well fitted to take up the work where her noble husband left off.

THE Mitchel & O'Hare Hardware Company's store room is receiving a new floor.

JESSE WARREN shot and instantly killed Joe Craig at Claysville, a negro suburb of Paris. Both parties colored. Warren escaped.

THE State Board of Assessment and Valuation met at Frankfort Saturday and fixed the valuation for the assessment of whisky at \$11 per barrel, this being the same as for several years past.

THE Second District Union of the Y. P. S. C. E. elected Mr. J. M. Scott, of this city, President and Miss Mary Hulet, also of this city, Secretary, for the ensuing year. The convention at Mayslick was largely attended, 150 delegates being present Sunday.

CALL and learn prices on a very select stock of onyx, iron, bronze, oak, mahogany and walnut clocks. My clocks are all warranted. The handsome stock of sterling silver spoons at the lowest prices ever offered at P. J. Murphy's, the jeweler, successor to Hopper & Murphy.

THE State Board of Sinking Fund Commissioners has unanimously adopted Governor Brown's resolution requiring the officials at Eddyville penitentiary to place all convicts inside the prison walls. The Mason & Ford Company, lessees, claim that their contract permits them to work convicts on their farm, and some litigation may grow out of it.

A GROWER says in regard to fruit: "Many a farmer could devote a few acres to this crop without materially lessening his staple crops, and it is wholly within bounds to say that the standard fruits, when well and carefully grown, will give an average return of \$100 an acre, or we will say, ten times as much as the ordinary staple crops will give at present prices."

THE management of the Germantown fair have secured the services of James R. Hunter as Chief of Police for their coming fair. Mr. Hunter held this position two years ago and gave perfect satisfaction. He will be assisted by trained men and skilled detectives, and woe be to the man who undertakes to smuggle tanglefoot on the grounds. Perfect order will be maintained. No intoxicating drinks will be allowed to be sold on the grounds, and everybody may go to the fair with perfect assurance of witnessing a pleasant and attractive entertainment.

EX-SENATOR DAWES has written for the October Forum an interesting article, full of reminiscences, on "The Decline of Oratory." Other articles in the October number will be a very lucid explanation (with a map) of the cause and the purpose of the Japan-China war, by Mr. M. Hise, a Japanese resident at Harvard University; an examination of the condition of the British Empire to determine the degree of its stability, by the celebrated economist, Dr. Geffcken; "Disraeli's Place in Literature," being the third of Mr. Frederic Harrison's series of studies of the great Victorian writers, and a "Southern Woman's Study of Boston," by Miss Doughty, of Washington.

THE MINDS OF THE PEOPLE

Of the country are so crazed with political affairs, but little thought is given matters of greater importance. The REAL question of the hour is—

What Shall I Wear On My Feet?
How Shall I Be Economical in Buying?

THE IRISH NATIONALISTS.

America Would Give Them More If They Quit Jaunting.

DUBLIN, Sept. 25.—Dr. Thomas A. Emmett of New York, in a letter published in The Freeman's Journal in regard to the dissensions in the Irish party, calls the attention of Mr. Justin McCarthy, chairman of the Irish parliamentary party, to the disastrous consequences to the national movement in America by the constant reference to scandal and by the public discussion of the differences existing in the Irish party. Dr. Emmett says that the National Federation of America was preparing to hold meetings in order to raise money for the Nationalist cause; but Mr. Healy's letter about Mr. Gladstone and subscription to the parliamentary fund has imperilled the whole movement in America.

Continuing, Dr. Emmett recalls the fact that during the past three years, the Irish Federation of America has sent Ireland \$83,000, and that had it not been for recurrent wranglings Ireland could have relied upon an annual remittance of \$100,000.

Dr. Emmett then appeals to Mr. McCarthy and his colleagues and to all the Irish representatives to stop their dissensions and to no longer paralyze the efforts of the warmest friends of the Irish cause in America.

FIRE LOSS AT PORTLAND, OR.

It Will Not Reach More Than Half as Much as First Reported.

PORTLAND, Or., Sept. 25.—A revised estimate of the losses resulting from Sunday's fire places the total loss at \$760,000. The following is the loss in detail: Pacific Coast elevator, \$210,000; wheat in elevator, \$100,000; coal bunkers and contents, \$38,500; wharfage, \$180,000; railroad track, \$5,000; 60 freight cars, \$21,000; wheat in freight cars, \$8,500; electrical machinery, \$160,000; steamer Willamette Chief, \$7,700; steamers' goods, \$2,250; miscellaneous, \$7,500.

The elevator and contents were insured fully in various companies. All the railroad companies' property is insured under blanket policies in the London and Liverpool. The coal bunkers, wharves and tracks were held in the name of the Northern Pacific Terminal company, but are in reality owned by the Oregon Short Line under an agreement for the purchase of all the property of the Terminal company on the east side of the river by the Oregon Short Line. The bunkers were insured for \$33,000, the wharfage for \$50,000 and the warehouses for \$15,000. The loss of the cars and part of the contents of the wharf will fall on the Oregon Railway and Navigation company, which is fully insured by a blanket policy covering all freight in transit, freight in warehouse, etc., along the company's line.

CARPENTERS AND JOINERS.

A Platform Adopted That Will Form a Nucleus For the National Labor Party.

INDIANAPOLIS, Sept. 25.—Cleveland gets the next national convention of the carpenters and joiners. This was decided yesterday afternoon by a vote of 47 for Cleveland and 36 for Brooklyn. President Trener will not be a candidate for re-election and fully 20 delegates are after his shoes. As the west again captured the convention, it is probable that the east will get the president.

The convention yesterday adopted the platform of 10 planks which is to form the nucleus of the platform of the coming national labor party. The platform favors governmental ownership of all public corporations, woman suffrage, the liability clause, the referendum and initiative, compulsory education and opposes child labor. It will be submitted to the local unions for ratification as well as a single tax clause.

Still Everybody's Fight.

SARATOGA, Sept. 25.—There is not a man versed in the ways of conventions of political parties that ever saw a situation like that which confronts the Democratic convention. The predicament is explained in a very few words by Lieutenant Governor Sheehan. He said: "There is not a man or politician here that knows who the nominee of the party will be until the convention meets. It is anybody or any faction candidate and the convention will be a Democratic one in every sense of the word."

Accident on a Man-of-War.

VICTORIA, B. C., Sept. 25.—The British man-of-war Royal Arthur was the scene of a distressing accident. Two midshipmen had been hunting and sent the guns aboard by a messenger boy from the local office, foolishly failing to extract the charges. The messenger took the guns to the ship and in the gun room one of them was discharged, instantly killing the steward of the gun room, Reece. The case is being kept quiet by the naval officers, pending investigation.

Weekly Review Cincinnati Tobacco Market

Furnished by the Cincinnati Leaf Tobacco Warehouse Company:

There is very little to say with reference to our tobacco market for the past week. The sales were not as large as the previous week, but there seemed to be enough to supply all demands, and prices were not improved, though the tendency in the latter part of the week was to the better, and Friday brought the best market.

The offerings show little variation, consisting mostly of low and medium grades, and it is beginning to look as if there was not as much of the better grades held as the trade in general anticipated. Old stock was dragging, though in some instances very fair sales were made. From the present outlook there is not much to be hoped for in the future, unless there is a general revival in business, but we don't think that the present depression in tobacco is at all permanent, and it would not surprise us if the coming few weeks would bring a better demand and, consequently, more activity in bidding. The rejections were numerous, and the manufacturers certainly did not get an over supply.

DON'T BE A COWARD.

If You Want Anybody Roasted Suppose You Try It Yourself and Don't Ask the Papers.

[Kipley Rec.]

The newspaper editor is frequently advised to pitch into somebody and to make vigorous attacks on certain institutions and individuals. A dog fight will frequently attract a crowd, but none of the spectators are willing to be the dogs. A day seldom passes in the office of a newspaper without a visit to it from some one who has a fault to find with someone or something. He wants the editor to attend to it for him. "Why don't you score 'em?"

Then he goes into detail, talks about this and that being an outrage, etc. When the editor tells him he will publish this and that complaint, provided he will sign his own name to it, he says: "Oh, no, I don't want to get into any trouble with these people. Don't you see? Can't you put it in the shape of an editorial?" He don't care what trouble the newspaper may get into by publishing his grievance, but is too polite and cowardly to assume the responsibility himself.

There are plenty of such people in every community, and the newspaper men always find out who they are.

Wornout Machinery.

The Right Hon. Sir George Grey, K. C. B., of New Zealand, now visiting England, says in the Illustrated London News:

"I call myself a conservative. Old machinery won't drive a new world. The old changes and must be replaced. Take the woman's vote, which is now a hard and fast and excellent fact in New Zealand. You'll have it in England by and by, but for the present you are losing half the intellect of the nation, and more, I make bold to say, than half the virtue of the nation."

The News describes Sir George Grey as "one of the greatest English preceptors of the century, the first statesman in the affection and achievements of Australian democracy." This testimony is all the more weighty in the case of New Zealand, where not only the white but the Maori women as well are admitted to the franchise, a reliance upon principles of justice which should shame America's uniform expediency and distrust of equal rights.—Boston Woman's Journal.

The Three Heaviest Men.

The three heaviest men of whom any mention is made in history were Miles Darden of Tennessee, Lewis Cornelius of Pennsylvania and Daniel Lambert of England. Darden died in 1857. When in health, he was 7 feet 6 inches in height and weighed over 1,000 pounds. I have no record of the date of the death of Cornelius, which occurred in Pike county, Pa., but the account says that he was born in 1794. When in his prime, he measured 8 feet 2 inches around the waist, was 6 feet tall and weighed 645½ pounds. Daniel Lambert was an English freak of the early part of the century and died in June, 1809. He was of average height, but weighed 780 pounds.—St. Louis Republic.

Central Asia Tales.

The English tale of "Cinderella" is found in the Siberian tale of "Papallaga," in the German tale of "Aschenputtel" and in the fable of La Fontaine about the milkmaid and her pail. The legend of "Beauty and the Beast" is also found in the myths of the Hindoo, Greek and Norseman. All of these tales had a common origin in central Asia.—New York Sun.

To tell our own secrets is generally folly, but that folly is without guilt. To communicate those with which we are intrusted is always treachery, and treachery for the most part combined with folly.—Johnson.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

DELIGHTED!

We have everything to gain by trading on a narrow margin of profit. We could not fill our shelves with goods at the very lowest prices known in the market if we did not buy on a large scale, and we could not sell on a larger scale unless we gave the public the full benefit of our close buying. We love to make our discounts. Our business will grow steadily, because we give it close attention. We buy cheap; we can sell cheap. Try us, the people's grocers,
